

# THE CENTER FOR AQUACULTURE TECHNOLOGIES CANADA

## Aquaculture Technologist I

The Center for Aquaculture Technologies Canada, a private aquaculture innovation and research company is seeking an **Aquaculture Technologist I** to assist in the daily operations of its Fish Nutrition team and R&D Facility on Prince Edward Island. Our research team on Prince Edward Island, Canada focuses on providing contract R&D support and professional services to the aquaculture industry. The successful candidate(s) will be a key member of CATC Nutrition team reporting to the Director of Fish Nutrition with the following responsibilities:

- Assist in the daily operations of the aquarium facilities in compliance with regulatory guidelines
- Performs daily monitoring and data collection related to facility function and animal husbandry including but not limited to:
  - Hand-feeding of fish
  - Maintenance of fish health
  - Maintenance and monitoring of equipment
  - Monitoring water quality
- Assists in setting up and decommissioning of aquaculture systems
- Expected to work weekends and may participate in on-call monitoring of facility operations on a rotating basis

Desired skills/experience/competencies:

A minimum of a high school diploma. The successful candidate must have the ability to work as part of a team in compliance with facility standard operating procedures. Candidates must demonstrate keen attention to detail and have the ability to think strategically, solve problems, and work independently in a fast-paced environment. CATC staff are innovative and foster a positive work environment congruent with the company values and philosophy. Previous experience in the aquaculture industry, with recirculating aquaculture and other mechanical systems as well as prior experience in a CFIA regulated/GLP environment will be considered assets.

Please send CV/Resume and provide the contact information for three references to: [info@aquatechcenter.com](mailto:info@aquatechcenter.com) with 'Aquaculture Technologist I' as the subject line.

Applications are accepted until the positions are filled; only candidates selected for interview will be contacted.
