

THE CENTER FOR AQUACULTURE TECHNOLOGIES CANADA

Research Associate-Fish Health

The Center for Aquaculture Technologies Canada is seeking a **Research Associate** to assist in the daily operations of its Fish Health team and R&D Facility on Prince Edward Island. Our research team on Prince Edward Island, Canada focuses on providing contract R&D support and professional services to the aquaculture industry. The successful candidate(s) will be a key member of the CATC team reporting to the Director of Fish Health with responsibilities including:

- Assisting in the execution of experiments and clinical trials
- Care and maintenance of the laboratory including calibration of equipment and completion of records.
- Care and maintenance of research animals including daily husbandry, animal welfare checks and associated sampling.
- Propagation and maintenance of pathogen isolates including use of standard cell culture and microbiological techniques.
- Development and revision of standard operating procedures.
- Timely completion of all projects with a high degree of quality.

Requires a minimum BSc in a relevant scientific field including any of the following as relates to animal health: Microbiology; Parasitology; Biochemistry; Immunology; Cell Biology/Physiology; Epidemiology or Genetics. Experience and training in handling and working with aquatic species is required; experience in handling and working aquatic animal pathogens is considered an asset. This position does require evening and weekend work from time to time in rotation with other CATC team members.

Candidates must strive for the highest standards of quality in their research and they must be organized, independent, creative thinkers with the ability to multi-task in a fast-paced environment. Excellent interpersonal and communication skills along with problem-solving expertise and are essential. Research experience in a GLP or other type of strictly controlled regulatory environment will be considered an asset.

Please send CV/Resume and provide the contact information for three references to: info@aquatechcenter.com with "Research Associate" in the subject line.

Applications are accepted until the positions are filled; only candidates selected for interview will be contacted.
